

# KENDAL<sup>®</sup> *at Home*

*Together, transforming the experience of aging.<sup>®</sup>*

# *Welcome*

# 1971: Kendal Begins...

...a Quaker mission rooted in Quaker values  
values

- Respect for the individual
- Equality
- Financial integrity

# Kendal at Home...

- Began operation in 2004
- Established a credentialing process
- Credentialed providers to begin providing care as needed
- Care needs emerged slowly but have grown consistently over the years.

# Beyond Homecare

- As members aged and needs increased, we saw a need for services that went beyond traditional homecare.
- Partnerships and collaborations became critical to keeping members at home.

# Inspiration to do Things Differently

# Supportive Services

- In 2015 we launched our Supportive Services division
- Our goal is to expand our mission to serve older adults beyond the at Home membership and provide care in a way that empowers individuals
- Focus on cognitive impairment and maximizing preserved abilities in an individual, while supporting the care partners.
- We will now begin adding a line of concierge services to meet additional needs identified by members

# In Conclusion.....

We do not anticipate providing all of the care without the existing partnerships but we hope we will begin to make a difference in the type of care we can offer.
