SaaS Company goes IPO with Sage Intacct

- The leading provider of enterprise cloud solutions for data collaboration, reporting, and compliance
- IPO in 2015 with market capitalization of \$1.48B
- 3,000 customers around the world

Issue	Before	w/ Sage Intacct	Impact
Automation of Contracts	Manually tracked orders in Excel	Have one central Contract master for customers creating innovative subscription billing offerings for customers, integrated with Salesforce.com	Gained \$500K in value from faster quote-to-cash process
Manual Processes	Accounting processes in QuickBooks and Excel	Reduced financial close by 50% even as # of entities grew from 1 to 8	Prepared for 2015, creating \$1.48B in market capitalization
Public reporting	Manual revenue recognition	Became ASC 606 compliant and ready for public reporting with integration to Workiva's compliance solution	Decreased compliance risk and data sent to FP&A team
Automate Finance	Delayed close and data in Excel	<i>"The new ASC 606 revenue recognition standard has been one of the biggest changes we've seen in accounting in a very long time. By using Sage Intacct, we're able to deep dive into an individual contract line and the associated details – whether that's the revenue status, the AR status or the contract asset status of that line – and dig into that detail with precision."</i> -- VP and Corporate Controller
