# Learning Objectives

- Identify efficiencies gained using Sage Intacct's Budgeting and Planning to establish assumptions, create models, and apply within a dashboard for key decision makers to review.
- Describe benefits of Sage Intacct Budgeting and Planning
- Demonstrate creating a budget in Sage Intacct Budgeting & Planning
- Analyze assumptions using Scenarios and Models against budget values
- Utilize dashboards and reports to compare and contrast

# Benefits of Sage Intacct Budgeting & Planning

WEALTH ADVISORY | OUTSOURCING | AUDIT, TAX, AND CONSULTING

Investment advisory services are offered through CliftonLarsonAllen Wealth Advisors, LLC, an SEC-registered investment advisor

# What is Sage Intacct Budgeting & Planning

- Web-based budgeting and planning application separate from Sage Intacct
- Has it's own:
  - Look and Feel
  - Set of Users
  - Set of Permissions
- Built in tools to cover the entire budgeting and planning life-cycle eliminating spreadsheets
- Provides Advanced features including
  - Collaboration
  - Modeling
  - Reporting
  - Forecasting

# Sage Intacct Budgeting & Planning Lifecycle

## Create a plan

### *Budgeting and Planning*

- Create a plan using company and actuals data
- Add calculations and business drivers
- Review and share with team members
- Export final plan to Sage Intacct

## Use in Sage Intacct

### *Sage Intacct*

- Analyze actuals versus plan using direct links
- User in reports and spend management

## Update a Plan

### *Budgeting and Planning*

- Import actuals from Sage Intacct
- Update plan data
- Save plan as forecast
- Export updated plan to Sage Intacct

# What does Budgeting and Planning offer you

- Simple to use with rich and powerful features so you can focus on your business plan
- Designed for everyone not just the finance team but management teams or board members
  - Creators: create budgets
  - Contributors: add to existing budgets
  - Viewers: view budgets
- Dashboards and widgets offer graphical overview of your budget
- Advanced reporting functions offer both financial and non-financial reporting

# Create a Budget in Sage Intacct Budget & Planning

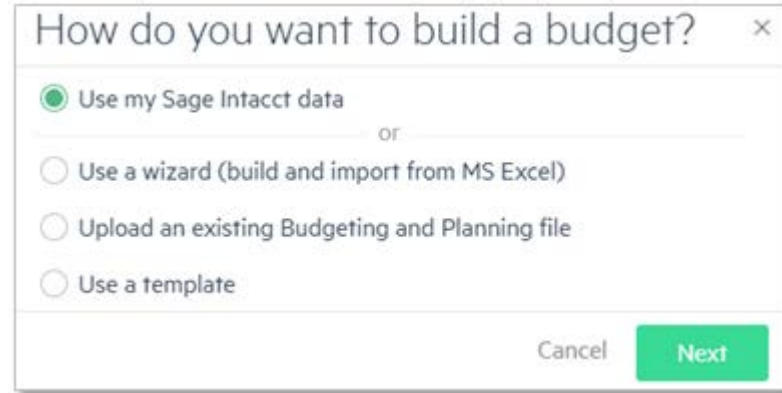

WEALTH ADVISORY | OUTSOURCING | AUDIT, TAX, AND CONSULTING

Investment advisory services are offered through CliftonLarsonAllen Wealth Advisors, LLC, an SEC-registered investment advisor

# 10 Step Wizard

- Select Entities
- Budget name and date range
- Select dimensions
- Option to import employees
- Map your accounts\*
- GL Account to budget line merge
- Dimensionalize budget structure
- Option to import actuals
- Date range for actuals
- Year over year changes
- Preview budget structure & clean-up

How do you want to build a budget?

☒ Use my Sage Intacct data

or

☐ Use a wizard (build and import from MS Excel)

☐ Upload an existing Budgeting and Planning file

☐ Use a template

# How are budgets built in Budgeting and Planning

- Each line in budget structure represents a specific expense or revenue account
  - Multiple GL accounts may be mapped to a single budget line
  - A single GL account may be mapped to multiple budget lines based on location and/or department
- Budget lines organized in a “tree-like” structure under different ‘branches’, such as for your different departments, locations, etc.
- Several methods for creating budgets in SIBP:
  - Sage Budgeting and Planning “built-in” template and manually enter budget amounts
  - Sage Intacct Data
  - Import Budget Data from Excel
  - Combination of Sage Intacct Data and importing budget data from excel

# Sharing a Budget

- Budgets are easily shared with other SIBP users
  - Modify (Contributors)
  - View only (Viewers)
- Changes are immediately visible to all users who have access
- Share the entire budget or only part of the budget

# SIBP Scenarios and Models

WEALTH ADVISORY | OUTSOURCING | AUDIT, TAX, AND CONSULTING

Investment advisory services are offered through CliftonLarsonAllen Wealth Advisors, LLC, an SEC-registered investment advisor

# SIBP Financial Models

- Model is a set of assumptions to compute a value for a budget line
- Built in models (called line types)
  - Common models with a set of assumption values to fill in
- Custom models
  - Construct custom models to match the assumptions needed by a business
- Models can leverage the value of other models
  - Example: A commission model with % assumption field that uses an expected revenue model for computation

# SIBP Scenarios

- A scenario is a parameterized set of assumptions used to apply “what if” computations to a budget – without changing the budget
- Enables real time assumption modeling
  - Allows users to try our various assumptions
- Scenario assumptions can be changed interactively with real time updates to the budget view
  - Visualize the impact of the variations
- Scenario assumptions can be applied to a budget to modify the budget

# SIBP Scenarios

A scenario is a budget overlay:

- You can create modify, add, or delete budget lines in a scenario
- Scenario modifications do not affect the budget
- Budget can be viewed with comparison to the scenario
  - Budget vs. Budget + Scenario
- A scenario can be merged into a budget to affect the budget

# SIBP Scenarios

Scenarios allow you to test your budget sensitivity.

Blue label indicates you are in a scenario

Review and revert changes

The screenshot displays the SIBP Scenarios interface. At the top, a dark blue header bar contains the text "Best Case" with a dropdown arrow, a close button (X), and a menu icon (three dots). Below this, a navigation bar shows "Main", "Model", and "Tables". The left sidebar lists various categories: "Student Master WIP Import File", "Revenues", "Cost of Revenues", "Operational Expenses", "Sales & Marketing", "Utilities - Internet", "Salary & Wages", and "Betty Wilson". The main content area shows a table titled "Revenues" with a "Type: Revenues" label. A yellow banner indicates "Settings changed for scenario: Best Case". Below this, a "Preview of P&L" section shows a table with columns for months from JAN 2019 to NOV, and a "TOTAL" column. The table data shows various revenue figures, with the total for NOV being \$5,3 and the overall total being \$35,197,033. A blue label "Best Case" is positioned above the table. A blue label "Betty Wilson" is positioned below the table. A blue label "Betty Wilson" is positioned below the table. A blue label "Betty Wilson" is positioned below the table.

	JAN 2019	FEB 2019	MAR 2019	APR 2019	MAY 2019	JUN 2019	JUL 2019	AUG 2019	SEP 2019	OCT 2019	NOV	TOTAL
Utilities - Internet	\$2,875,819	\$2,543,362	\$2,698,444	\$2,721,837	\$2,699,544	\$2,720,737	\$2,698,444	\$2,721,837	\$2,698,994	\$2,720,737	\$5,3	\$35,197,033

Blue budget lines indicate which items are updated in the scenario

# Real Time Model & Scenario to consider:

Budget by Employee and/or Role:

- Employee/Role Benefits
- Employee/Role Taxes
- Employee/Role Life Style Increases
- Budget by Employee/Role or New Hires

Role	Employee Id
Benefits % $f_x$	Employment Taxes % $f_x$
Payment	Yearly Increase % $f_x$
Yearly Vacation Days $f_x$	Avg Accrued Vacation % $f_x$
Max Accrued Vacation days $f_x$	Bonus Period
Bonus $f_x$	Bonus Payment After months

Anywhere you find the  $f(x)$  function a model can be inserted.

## Getting started with SIBP Scenarios

May 19, 2020 | by Ted May

Scenarios can help answer questions like: What are the short term impacts to the budget? What will it take to return to pre-pandemic levels of production? Sage Intacct has a solution to help address some of your budget anxieties during a crisis.
